VAGCOM 409.1 Serial Key Generator.,Mugabe was treated with sedation and fluids as he was being taken away for a medical test at the state-run Harare hospital. Mugabe was taken by ambulance from the clinic to Central Hospital for a second set of tests. Advertisement The official medical certificate will be sent to the Constitutional Court as requested by a judge, the state media said.

Gatanga tweeted that he was expecting a notification of the results from the Chief Justice, following Mugabe's receipt of the medical certificate. Ahead of the ruling, a court official said Mugabe had been treated for fever. Mugabe has been in hospital since Monday afternoon after falling ill when he suddenly went into respiratory failure. The 94-year-old has not been seen in public since Tuesday and the government has closed the borders. Mugabe's supporters say he will recover and the prognosis has not affected his stance towards the court case, which he sees as an unjust manoeuvre by his government to abuse the system. On Tuesday, Mugabe said he had started his first treatment for a year. "I have been taking tablets for the past year, but nobody thought it to be worthwhile to run tests to discover what the problem is," he said. The government ruled out a stroke or cardiac arrest. "Even if the allegation was that he had a stroke, he should have called us first for us to advise him in that case. "He should never have left the country without consulting us," he said. The state broadcaster also did not release information on the diagnosis. "It is really sad that, in our country where we have so much to celebrate, we are celebrating a
