Tora intezaar tu jane pyaar mera. Tu jayi karein jaa lenu. Main nahi intezaar chalthey jaate hoon. Pyar mera, main karan intezaar mein jaa raha hoon..NEW DELHI: The woman in charge of implementation of Aadhaar (Aadhaar Enrolment System) in Punjab has said that a few glitch in the software have been fixed.The Aadhaar enrolment software was launched on October 29 this year to enable a slew of welfare schemes of the state government to be implemented.With enrolment from April 1, a total of 60 crore Aadhaar cards have been issued in the country with 500 million people getting enrolled and 1.1 billion issued.The government had said that the software is fully tamper-proof and there is a separate server for providing security.Aadhaar team told PTI that it will launch the software nationwide on Tuesday.According to a senior official of the department of biometrics who has been associated with the project since its early days, it was launched to address the challenge of making Aadhaar mandatory for a slew of welfare schemes, including benefits such as food-grains subsidy, PM-KISAN scheme, mid-day meal, employment and education."The biggest challenge is that people had not even heard about Aadhaar.We had to educate them about it and explain the benefits. It is now mandated for 50 schemes in the state and would soon be required for all schemes. We have launched it for all schemes on the same date," the official said.It is also in the process of being introduced in Delhi, Chandigarh and Haryana.On launching the software, UIDAI said, "Today is a historic day for India as we have launched the Aadhaar Enrolment System (AES) for all eligible Indians. It is an enduring symbol of our determination to bring social and financial inclusion to all Indians. We are proud of our engineers, biometric experts and our large community of Aadhaar community who have worked tirelessly over the last few months to ensure the smooth and seamless roll out of the Aadhaar System".Aadhaar is a 12-digit unique identity number issued to all Indian citizens that could not be duplicated, unchangeable or forged.All citizens can get their unique number via registration at a designated enrolment centre.The software has the capacity to enroll 100,000 people in less than an hour.Also, the portal can be used to get the
