Meaning Of Biterrass The Powerfull M by R Parthiban Kirukkalgal PdfQ: How to call external API using Fetch API? I am trying to fetch data from an external API using Fetch API. I am using the following code. It seems to always return undefined.

```
export function fetchData() { const url = 'url/data'; const params = { headers: { 'Accept': 'application/json', 'Content-Type': 'application/json', 'api-key': 'key' } }; const requestOptions = { method: 'GET', mode: 'cors', credentials: 'include' }; return fetch(url, requestOptions); }
```

A: You need to add a Promise and wait for that for getting the actual data.

```
export function fetchData() { const url = 'url/data'; const requestOptions = { method: 'GET', mode: 'cors', credentials: 'include' }; return fetch(url, requestOptions).then(response => response.json()); }
```

Also, you need to check if the response is actually a JSON. .then(response => response && response.json()) and is tasked with ensuring that this is the case. His task is a thankless one. Half the council is too busy or too friendly to draw. Many are too flattered by the attention they receive. Most can't be bothered. But it is his job, and he must carry it out. Sometimes, however, it is not necessary to satisfy all members, or even a majority. Indeed, one of the problems of satisfying all members lies in the very real possibility that someone might be offended. In 1950, seven women stepped forward
